**CLASS 3
IMPACT
RESISTANCE**

MYSTIQUE 42 MEETS THE FM 4473 IMPACT RESISTANCE CLASS 3 REQUIREMENTS.

Mystique 42, built with a SeBS elastomeric compound provides proven FM performance.

On top of enhancing the impact resistance of the shingle, the modified asphalt improves the flexibility of the material, yielding better reaction to freeze-thaw cycles and improves the granules retention that protect the asphalt from UV degradation.

Mystique 42 shingles are backed by BP's Limited Lifetime Warranty

It is recommended that you view a full size shingle before making a final colour selection. We reserve the right to change colours at any time.
